

I started songleading when I was 7 years old at URJ Camp Harlam! I was inspired by songleaders at Harlam and have been embracing that community, leading there for over a decade, leading on my various Israel experiences, and doing many other trainings including NFTY Nashir!

I've been to DC many times with the RAC, this one for L'Taken! I was also in the RAC Teen Justice Fellowship!

I attended The Collab in its inaugural year, and was so inspired by everyone that I joined the Collab Core Team for 2023!

After my 8th grade trip to Israel was COVID-cancelled, I had an exciting opportunity to visit Israel with URJ Heller High and Yallah! Israel where I deepened important relationships, created many new lifetime bonds, and explored my Judaism!

Here's little me looking dashing as the youngest member of the teen delegation (albeit I wasn't a teen) at the 2017 URJ Biennial! Despite being so young, I'd already attended NFTY Nashir and NFTY 678 events!

I'm
Barak Landis
 candidate for
urj NFTY
North American
President!

I'm honored to have been a part of this year's North American Leadership Team, where I developed programming, oversaw Israel matters, and supported regional leaders! I hope to have the opportunity to serve you all once again this coming year!

My Priorities - Short Term

- Educate and mobilize Reform Jewish teens for the 2025 World Zionist Congress elections
- Create a large, affordable, springtime in-person North American Event,
- Unite branches of the Reform Jewish Youth Movement to create one strong community for all Jewish teens

"For as long as I can remember, NFTY has truly been at the center of my life. I've always had a passion for all of the programs NFTY and the larger URJ offer. I've had the privilege of being supported and mentored by a wide and diverse group of leaders, and have so much I want to give. I'd love one more year to live, not die,"

N-F-T-Y!!

My Ideas - Long Term

- Growing our movement by involving more teens than ever before
- More creative programming to make our movement a home to even more Jewish teens
- Raising resources and investing in the NFTY pipeline including helping regions, TYGs, leaders, and participants everywhere
