My experiences in the fellowships and immersive have been my greatest motivation for wanting to be on NAB. The Israel portfolio, that is part of the Fellowship and Immersive VP, encompasses the area of NAB where I can have the largest impact. This role would allow me to continue work I do on the Movement Wide Campaign, as well as provide me the opportunity to be the voice of URJ teens when it comes to Israel issues.

NON - NFTY

Outside of the URJ, I am an active member of my high school's performing arts department in shows, choir, and band. I am also a member of the National Honors Society, Tri-M Music Honors Society, and the International Baccalaureate Program.

WHY ME?

As someone who has experienced the URJ in many different forms, I am able to present viewpoints that relate to teens across the movement. My goal is to connect those who are not as involved in this movement, and give them the opportunity to experience everything that the URJ has to offer. There are so many aspects of this movement that I adore and hope that I can help continue to foster this incredible NFTY community.
